## Welcome to the Nuvance Health Golf Invitational

Morefar is a very unique property. Nestled in the hills and valleys of the lower Berkshire Mountains in Brewster, NY, Morefar is situated on more than 600 picturesque acres of woodlands, lakes and fairways.

Architect Edward Ryder was commissioned to design the Morefar golf course as a pleasurable retreat for golf enthusiasts. The result of his labors are no less than spectacular, rivaling the world's most beautiful courses and challenging professionals at the top of the sport. Morefar is dedicated to providing the golfer with a sanctuary, far from the bustle of everyday business. Narrow fairways and sharp doglegs along undulating hills, together with strategically placed sand traps and water hazards, make proper club selection and pinpoint accuracy a must. Long hitters will savor the challenge of Morefar's two 600-yard holes at 9 and 12. An excellent short game will prove valuable on the 13th hole where both tee and green are surrounded by water.

If natural variances and nuances are not enough, be aware of the more than 25 bronze statues found along the fairways and off the greens. Both the new, and more experienced, golfers will enjoy playing Morefar – it's natural charm, manmade ingenuity and beautiful sculptures make it one of America's most unique and unforgettable golf facilities.

Nuvance Health is excited to be hosting the Golf Invitational at Morefar. Please note that the Invitational is limited to 18 foursomes. Dress code at Morefar is casual: casual slacks or golf shorts, golf spikes and collared shirts. The buildings at Morefar are non-smoking. Each foursome will be equipped with a golf cart with a GPS system.
